

BEST EVIDENCE of EVOLUTIONISTS - Where's the Beef? (Evidence)

Ray Mondragon

I. The Introduction

II. The Mechanism

A. The Issue

B. The Weakness

1. They are Rare
2. They are Unpredictable
3. They are Harmful
4. They Produce Genetic Burden
5. They are Pathological
6. There is Rejection
7. There is Information Loss

III. The Superficial Evidence

A. The Comparative Anatomy Argument

B. The Microevolution Argument

C. The Vestigial Organs Argument

D. The Embryology Argument

E. The Anthropology Argument

IV. The Destroying Evidence

A. The Fossil Record

B. The Other Evidence

V. The Conclusion
